

MUCH DAMAGE DONE
BY WIND AND SNOWRAILROAD TRAFFIC DELAYED
IN MANY STATES.

The Entire West Suffering From a Storm That in Many Places Reaches the Dimensions of a Blizzard—Detailed Reports From Various Points—Wisconsin Roads Blocked.

Virginia, Ill., Nov. 26.—The first genuine cold wave this season struck this section late Sunday night, turning the rain into sleet, and a thick coat of ice covers everything. Travel is light and business generally suspended. It is growing colder.

Harvard, Ill., Nov. 26.—Yesterday afternoon and last night a terrific snow storm was prevailing here. The snow is nearly ten inches deep and the wind is blowing at a rate that will impede travel. All trains are late. Freight trains that possibly can be are being abandoned. Heavy snow and wind storms are reported from all over the state.

STORM IN NEBRASKA.

Railroads Embarrassed, but Farmers and Stockmen Pleased.

Omaha, Neb., Nov. 26.—Trains on all the roads reaching Omaha yesterday were from one to five hours late on account of the snowstorm. From five to ten inches of snow covers Nebraska. All the country within 100 miles of Omaha has experienced the same storm, while from Chadron and along the line between, the report tells of a heavy fall of snow, continuing for at least twelve hours. All of Nebraska seems to be included in the limit of the storm. In this respect it is most valuable. While it comes quite late for much benefit to fall wheat and rye, it will undoubtedly save some of these crops, and it goes far to insure good crop conditions for the early spring. A foot of snow now followed by a reasonable amount during the winter, means much for Nebraska. Not only does it insure good crop conditions, but it furnishes water for cattle on the range.

IMPEDES TRAFFIC AT ST. LOUIS.

Reports from Texas Points Show the Heavy Storm Is General.

St. Louis, Nov. 26.—Rain fell all day yesterday and at nightfall turned into snow, which continued to come down until a late hour, covering the streets to a depth of several inches and interfering with street car traffic. The storm prevails throughout the state and further south.

Reports from Dallas, Sherman, Fort Worth and other points in northern Texas indicate that the heaviest snowstorm in years has been raging throughout that section since yesterday morning. A decided fall in temperature has taken place, and as live stock is in bad shape to meet it heavy losses are expected. Trains are badly delayed.

BLIZZARD IN WISCONSIN.

First Heavy Storm of the Season Delays Trains.

Milwaukee, Wis., Nov. 26.—Wisconsin is experiencing the first blizzard of the season. There was a lively snowstorm early yesterday morning, but it was a small affair compared with the one which began at 6 o'clock in the evening and which the weather man says will continue all day. Reports received at the local offices of the St. Paul, Northwestern and Wisconsin Central railroads show that all trains are behind time. While the delay thus far has not been serious it is feared that it will be before sunrise.

Cold Wave in Iowa.

Fort Dodge, Iowa, Nov. 26.—A cold wave struck this portion of Iowa early yesterday morning and was followed by a heavy fall of snow. The mercury has dropped twenty degrees since yesterday morning and is steadily lowering.

Burlington, Iowa, Nov. 26.—A heavy snowstorm raged here and all street car lines were blocked. Extra motors are keeping the tracks as clear as possible.

Davenport, Iowa, Nov. 26.—Several inches of snow covers the ground here and the fall continues. Good skating is furnished on the lakes in the parks, several weeks earlier than usual.

In Kansas and Oklahoma.

Kansas City, Mo., Nov. 26.—Snow fell here and throughout the southwest yesterday. Specials from Hays City, Coffeyville and Independence, Kas., say the storm almost reached the dimensions of a blizzard. At Guthrie, O. T., one of the hardest snowstorms ever known there is prevailing, following a rain and sleet storm of yesterday.

Texas Stock Will Be Injured.

Sherman, Tex., Nov. 26.—A blinding snowstorm has raged here since 9:30 yesterday morning and increases in force. The temperature is falling, and live stock in this section is in bad shape to meet it. Heavy losses are expected. It is snowing 200 miles south of here.

Drouth Broken in Indiana.

Greensburg, Ind., Nov. 26.—The drouth is completely broken here. A heavy rain has been falling since Friday noon. All the streams are full and past fording at many places and the rain is still falling.

OMAHA CONGRESS IN SESSION.

Three Hundred Delegates Present to Discuss Matters of Interest.

Omaha, Neb., Nov. 26.—The eighth annual convention of the trans-Mississippi commercial congress was convened at 11 o'clock yesterday at Creighton hall. President George Q. Cannon of Salt Lake opened the session. Though the terrific storm throughout the west delayed many, 300 delegates faced the presiding officer when the convention was opened. The morning session was devoted to welcoming the guests. At the beginning of the afternoon session the committees were appointed, credentials examined and the convention regularly organized. These preliminaries occupied the greater part of the afternoon session. The programme for the session of the congress is only partially outlined. As far as prepared it includes the following discussions:

"The Hawaiian Question," Hugh Craig, San Francisco.

"The Nicaragua Canal," Capt. W. L. Merry, San Francisco.

"Statehood for Territories," Sidney Clarke, Oklahoma; ex-Gov. Prince, New Mexico.

"Trans-Mississippi Freight Tariffs," James V. Mahoney, Sioux City, Iowa; Capt. Lon Bryson, Davenport, Iowa.

"Deep Waterways," A. P. McGuirk, Davenport, Iowa.

"Irrigation," ex-Gov. Prince and others.

The largest and most notable delegation in the convention represents Utah. Iowa, Missouri, Arkansas, Kansas, Texas, Colorado, California, Arizona, Nevada, Washington, Oregon, Wyoming and the Dakotas are represented.

The executive committee has decided that it would not fix any set time for the discussion of various topics. They will be taken up in order. As rapidly as one is exhausted another will be introduced. In this manner members will be able to devote time to each subject in the proportion that they are interested in it.

The response to Gov. Holcomb's welcoming address by L. Bradford Prince, of New Mexico, was a feature of the closing afternoon session. He asked his audience to think of the gold miner of Colorado, who has been made prosperous by an act of congress, and then of the poor silver miners, whose property has been taken away by the same act.

From 6 to 7:30 o'clock a public reception was tendered the delegates at the city hall, and then the evening session of the body opened with the discussion of "Statehood for Territories," by Gov. Prince, of New Mexico, in which he pleaded for the immediate admission of New Mexico, Utah and Arizona. The sentiment of the body was with him throughout. This topic consumed the whole session, and many members joined in the discussion. It was agreed that statehood could not be withheld from those three territories much longer.

H. R. Wetmore, of St. Louis, chairman of the executive committee, is attracting much attention. He said last night: "I do not think the silver question will play much part in the proceedings. That has lost ground recently, and is no longer a subject of first interest with the convention, though many delegates are friends of the white metal. The matter of freight discriminations will undoubtedly be one of the best subjects on the programme, and the discussion of forestry, irrigation, harbors and deep waterways, and the Nicaraguan canal will be attended with much interest."

It has been found necessary to make some changes in the programme which was originally announced. There will be sessions of the convention in the morning and evening.

GETS A MILLION DOLLARS.

Montana Supreme Court Hands Down an Important Decision.

Helena, Mont., Nov. 26.—Andrew J. Davis, Jr., of Butte got a clear title to \$1,000,000 worth of stock in the First National bank of Butte yesterday. The Supreme court decided the late Andrew J. Davis, whose millions were fought for by scores of heirs all over the country, had intended to present to his favorite nephew and namesake the property in question. The dead millionaire never, in writing or by formal document, made over the bank stock, but all his friends knew he intended to give it to young Andy. The court decided that, under the facts, a complete gift was passed as between Judge Davis and Andrew Davis, and a written indorsement of a choice of action is not necessary where there is a delivery with an intent to give.

Father O'Grady on Trial.

Cincinnati, O., Nov. 26.—Father Dominick O'Grady, who shot Mary Kilmartin on the street here, was brought into court yesterday from the hospital on a cot to be tried as to his sanity. The prosecutor says his condition is the result of persistent shamming. O'Grady's attorneys watched closely the selection of a jury, questioning each man concerning his prejudice against Roman Catholics, and also whether he was a member of any anti-Roman Catholic association.

Topeka, Kan., Nov. 26.—A head-end collision occurred at 4 o'clock yesterday afternoon just east of Shoemaker, N. M., between the east-bound Chicago limited and a freight train. The trains met on a sharp curve. Both engines were demolished. The mail car was thrown on top of the engines and the baggage car and one chair car are upside down in the river.

Twelve passengers were more or less seriously injured. Engineer Bourne, of the flyer, and postal clerk are missing. HURT IN A FREIGHT WRECK.

Train on the Pennsylvania Road Parts and Comes Together.

Fort Wayne, Ind., Nov. 26.—A freight wreck occurred early yesterday morning on the Pennsylvania railroad near Ritchie, O., twenty miles east of this city. None were killed, but five men were more or less injured. The train parted and came together with a crash, breaking up several cars of grain. The injured men are:

Conductor J. J. A. Herring.

Flagman S. Waass of Fort Wayne.

J. B. Weber of Decatur, O.

N. C. Vance of Martin's Ferry, O.

S. A. Wilson of Marengo, O.

When the crash came Herring was thrown through the caboose window, his left arm and wrist being badly injured by the fall. Flagman Waass was sitting in the cupola of the caboose, and was thrown violently to the floor. Three ribs were broken by the fall and he was also injured about the head and arms. Weber, Vance and Wilson were drivers in charge of stock, but were slightly injured and were able to continue on their journey.

TESTIMONY CONFLICTS.

Name for the Cleveland Street Car Horror Not Yet Placed.

Cleveland, O., Nov. 26.—After many continuations the coroner's inquest in the Central viaduct street car disaster was resumed yesterday. J. F. Campbell, a dealer in dairy supplies, who was following closely behind the ill-fated car with a horse and wagon, testified positively that no red light was shown over the gates. On the other hand, Assistant Fire Chief H. H. Rebbeck and several other witnesses, who were on the bridge when the accident occurred, swore that the red lights were displayed at both sides of the draw, according to the rules. William Hagen testified that he saw a lantern thrown from the bridge into the river an hour after the accident occurred, throwing out the impression the gate lantern had been purposely thrown into the river in order to make it appear that it had been knocked from the gates by the car when it struck them.

THE APPORTIONMENT
MAY BE ILLEGALTHE COMMITTEE SUSPEND
THEIR LABORS.

Lawyers Claim that the Lines Laid Down By the Supreme Court Have Not Been Followed By Mr. Turner—Matter Is Left to Col. John C. Spooner.

Madison, Wis., Nov. 26.—[Special]—The work of the committee on the new apportionment bill was stopped today, as the lawyers of the committee have grave doubts about the constitutionality of the bill drafted by A. J. Turner. They fear that it does not follow the lines laid down by the supreme court. If it is finally decided that this is the case, a new bill will have to be prepared. The matter will be referred to ex-Senator Spooner, and but little more work done that point is decided. The legislative apportionment committee met yesterday to receive Clerk Turner's report submitting a new apportionment of the state into senate and assembly districts. A dozen or more legislators were present at the session and after the reading of the report they were given opportunity to express their views. A sentiment in opposition to calling an extra session of the legislature to apportion the state seems to be developing. The committee reports its apportionment to the governor, to be submitted to the legislature at the next session, and the governor will then decide whether the next session shall be special or whether the apportionment shall not be made until the regular session of 1897, which will be after the election of a United States senator. The committee will discuss this feature of the case, but whether its report to the governor will include a recommendation on the matter is not yet determined.

LANDS FOR SETTLERS.

Sioux City and St. Paul Grant to Be Thrown Open Feb. 27.

Des Moines, Ia., Nov. 26.—Register Evans of the government land office has received instructions relative to opening to settlement the land grant of the Sioux City and St. Paul road in O'Brien and Dickinson counties, recently forfeited to the government. The instructions state that there are 21,900 acres in the forfeiture, of which all but 8,000 acres has been sold by the government. Under the instructions the register will publish notice of the opening for thirty days, it being necessary that there be ninety days' notice from the time of the first publication. The publication will be made in O'Brien county papers. The date for opening the lands is Feb. 27, 1896. The conditions provide that persons who have acquired title from the railroad must give the land office notice of the fact before Feb. 27. After that date a day will be fixed on which to present proof. Any persons having adverse claims to property may also present their cases on the day set for the hearing, and the one who has the best right will receive the land upon payment to the government of \$2.50 per acre. No person is to be limited by the quarter section clause. If he has purchased 1,000 acres and can show the railroad title he will be protected. This does not apply to the 8,000 acres to which title has not been passed by the railroad company. On this homesteaded entries may be made Feb. 27. The first to enter will get the land. To secure perfect title one must live on the land fourteen months and then pay the government \$2.50 per acre or remain in continual possession five years and then receive the title upon the filing of final proofs. The published notices are now being sent out.

Thinks He Will Be Senator.

Huron, S. D., Nov. 26.—Congressman Pickler, accompanied by his wife, has just finished a tour of the state in his interest as candidate for the United States senate, to succeed Kyle, and says that the outlook for success is exceedingly good, and that nothing less than a complete revolution of sentiment will prevent his election by the next legislature. It is believed, too, that he will be given his choice between the chairmanships of the house committee on pensions and that on Indian affairs.

Jackson of Tennessee, adopted by the bar of the court. The attorney-general paid an eloquent tribute to the dead jurist. Chief Justice Fuller responded in behalf of the court and the resolutions were ordered spread on the minutes.

THE NICARAGUA CANAL.

Rumors That the Commissioners Will Make an Unfavorable Report.

Washington, Nov. 26.—A serious blow has been dealt the Nicaraguan canal company's project for the construction of a waterway across the isthmus by the report of the Nicaraguan canal commission. A review of the contents and the text of the conclusions of the report of the commission became public this morning. The report is at such variance with the numerous rumors and predictions, which have from time to time been published concerning it, that it will cause great surprise and disappointment among those who have hoped for a generally favorable report, and who have, therefore, placed credence in these rumors, which usually stated "on the highest authority," that the commission favored the route proposed by the company, and placed the cost of the canal at about \$110,000,000.

On the contrary, the report points out that it is neither practicable nor advisable to attempt the construction of the Nicaragua canal upon the data at present available, and that the undertaking would be fraught with hazards too obvious to disregard. With the data at hand the commission makes a provisional estimate of cost \$133,472,893, or nearly double that of the Maritime Canal company's unconditional estimate of \$69,893,660. The report says the official estimate by the company is insufficient for the work; that "in several important cases the quantities must be greatly increased and in numerous cases the prices do not make proper allowance for the difference in cost of work between the United States and Nicaragua." The general trend of the entire report is certainly very unfavorable to the canal company.

MISSIONARIES ARE SAFE.

Turkish Troops Give Every Protection to Americans.

Constantinople, Nov. 26.—The United States minister, Alexander W. Terrell, has received a dispatch from Aintab, announcing the safe arrival there of the American missionaries belonging to the Kharpout mission, Dr. and Mrs. Americus Fuller, the Rev. Charles S. Sanders, Mrs. A. M. Trowbridge, Miss Ellen M. Price and Miss Elizabeth M. Trowbridge and the English governess, Miss McDonald.

The missionaries, who are on their way to Constantinople, add that full protection was afforded them by the Turkish authorities when an escort was demanded from the porte by Mr. Terrell. The latter is now satisfied that the 172 missionaries in Anatolia are safe. The situation here is still grave.

Would Make Them State Lands.

Washington, Nov. 26.—Secretary Hoke Smith, in his annual report, will recommend that the Carey law, granting 1,000,000 acres of arid lands to each state in which such lands are situated, be amended so that the grant be made to the state outright and it be made responsible for the irrigation of the lands. Under the law as it now stands it would be many years before the state would receive the benefit of the grant, and Secretary Smith believes that the state can carry out better the intention of congress if it gets control of the entire grant at once instead of waiting until water is secured for the lands.

St. Louis, Mo., Nov. 26.—The A. H. Fuchs millinery store, one of the largest in St. Louis, was visited by a destructive fire between 9 and 10 o'clock last night, causing a loss estimated at between \$100,000 and \$200,000. THE LOCAL OVERFLOW

HOW SLINGER THE TRAMP, DIED

Belott Gunner's Jury Say Dan Dugan Used the Club.

Dan Dugan was arrested yesterday afternoon on the charge of manslaughter, the coroner's inquest at Beloit resulting in the finding by the jury, that the death of "Slinger," the tramp, was due to his being unlawfully struck on the head with a club by Dugan. Grier, Dugan's comrade, was held as a witness. A warrant was sworn out, charging Dugan with manslaughter, and his examination was set for this morning. District Attorney Jackson acting for the state. The post mortem resulted in finding a fracture of the skull at the base and a clot of blood in front of the head, which was evidently caused by a blow that was struck from behind. Dr. Nye said Slinger's death was caused from paralysis, the result of the blow on the head.

Joseph Englan, who is charged with larceny from the person was taken before Judge Phelps at 3:30 o'clock yesterday afternoon and waiving his examination, was held for trial on Dec. 2 at 9 o'clock a. m. His bail was fixed at \$300, the bond being signed by John Boylan and Thomas Hayes.

WANDERERS SLEEP AT THE JAIL

An Unusually Large Number of Vagrants Seek a Night's Lodging.

The county jail is the barometer of human suffering these days, and if there is any place during these cold nights, where poverty is shown more plainly than another, it is at the bastille of the commonwealth. Of late an unusually large number of people have applied at the jail for lodging, and for so early in the season the number has been something phenomenal. Last Saturday night Turnkey Griffey says that eight men applied for a night's lodging before 8 o'clock. In most cases they were young men under thirty years of age who were merely out of work and wandering about the country. In the morning when breakfast time comes the "over night lodgers" are let loose.

Box 18 was then pulled, and the department hastened to the machine works, only to find that there was no fire.

Deaths by Heart Failure and Heart
Disease.

In the Rush of Life Something Should
Be Taken.

To Keep Nerves Strong, Heart Action
Vigorous.

Dr. Greene's Nervura the Best Remedy
in the World.

The death of so and so from heart failure is becoming a common announcement. Such occurrences are of appalling frequency. Hardly a day passes that some successful merchant, or noted business man, some distinguished professional, or some leading society lady does not succumb to this distinctive archer, and the community is filled with gloom and dismay at the suddenness of their deaths. We hear of the death of prominent people but how many thousands of people in the ordinary walks of life die daily of the dreaded nerve weakness of the heart?

That great organ is the motive power. It moves the whole system. Once it fails and all is over. And how quickly it ceases; how unexpected the end! It comes like the thief in the night; its approach is not heard. Whose turn next? Who can tell? Not the wisest of us all. How important then we should try to stay its progress; that we should keep the heart and nerves which control its action steady and vigorous.

How can it be done? Only by strengthening and vitalizing the heart and nerves, which control its every beat, the mighty power which gives it tone and vital health. Many thoughtful minds have labored to discover some energizing element—some product of nature to prevent the waste and keep this organ in its naturally healthy condition. In this search the intelligent and patient labors of one scientific physician have been crowned after years of effort with eminent success. His grand discovery, Dr. Greene's Nervura blood and nerve remedy, is pre-eminently the best heart remedy, the medicine which always restores a strong, vigorous and healthy heart action. If you have a weak heart to fear that its action is not as strong as it should be, lose no time in using Dr. Greene's Nervura blood and nerve remedy. The symptoms are plain—headache, dizziness, strange faint feelings, sinking at the pit of stomach, fluttering in the chest, nervous-

ness, restless, sleepless nights with dreams, sense of anxiety for foreboding. There may or may not be pains in the chest. If any of these symptoms are present, take Dr. Greene's Nervura blood and nerve remedy at once. Use this remedy of wondrous power in time and you need have no fear of sudden death from weak heart and heart failure.

Follow the example of Mr. George Vannah, of Danverscotts Mills, Me., who says:

"Nearly ten years ago I began to have what the doctors called heart trouble, and up to the present time it has been growing worse. It was so bad I was actually afraid to go to sleep at night, and many times during the night it would seem to me that I was dying and could not live five minutes longer. I employed three of the best doctors, but got no relief whatever, and as a last resort I thought I would try Dr. Greene's Nervura blood and nerve remedy. I have only taken one bottle and am now on the second and the heart trouble has been entirely removed. 'I was so pressed for breath at times that I could not work but very little. The trouble is all gone and I can now sleep and rest as well as I ever could in my life. Before I began taking the Nervura what sleep I did get did me but little good, I was troubled so much with frightful dreams; but I thank the Lord for Dr. Greene's Nervura, as I can sleep all night and feel refreshed in the morning. I have talked with several persons who are similarly afflicted as myself, and would recommend to one and all, do not hesitate longer, but give Dr. Greene's Nervura blood and nerve remedy a trial and be convinced of its curative powers.'"

Walter E. Vannah, of the same town, verifies the same testimonial as he says: "I can truthfully certify that the above statement of Mr. Vannah is positively true in every sense of the word."

This is not an isolated instance. Thousands of people throughout the world have also been saved by Dr. Greene's Nervura, the great blood and nerve remedy. Heart disease does not select its victims; it may strike you at any moment. Nourish and strengthen

your vital powers to resist its onslaught by taking this wonderful medicine. Remember this great remedy is the discovery of the successful specialist Dr. Greene, of 35 West 14th street, New York city, who adds to its value by allowing all who use it to consult him personally or by letter, free of charge.

PHYSICIANS ASKED TO MEET

EDITOR GAZETTE: Certain sanitary matters in which the city is deeply interested are attracting the attention of the physicians of the city. It is believed the physicians of the city ought to come together for consultation and discussion. I therefore take the liberty to request all practicing physicians located in the city, to meet in the municipal court room, on Wednesday, Nov. 27, at 7 o'clock p. m., for the purpose indicated. Prompt attendance is desirable. J. B. WHITING.

HEALTH OFFICER IS CAREFUL

All Cases Where Quarantines Indict Hardships Have Been Investigated.

Of late an unusually large number of cases of contagious diseases have been quarantined and in a number of cases the officers have been given notice that "this or that family must have a supply of coal or provisions" at the city's expense. Health Officer Gibson has taken extra pains to personally investigate all such cases and in no case has a family been supplied at city's expense unless it was found that they were actually in need and could not get the supplies themselves.

BIGGEST WEEK IN ELEVEN YEARS

A Local Shoe Firm Has Its Faith In
Gazette Ads Richly Rewarded.

Brown Bros. & Lincoln last week did the largest business they have seen in all their eleven years of trade. How did it happen?

They sold first class shoes to begin with, made the prices right and told the people about it through The Gazette.

No Gazette reader needs to be told that Brown Bros. & Lincoln use printer's ink liberally.

And by the way—We came near omitting this, through modesty—

The Gazette is the only advertising medium they find it necessary to use in thoroughly covering Janesville and Rock county.

Why We Sell Clothing Cheap.

You remember when we bought that lot of clothing we are now closing out. It was only a short time ago. We paid a small sum for the goods in comparison to their worth and usual price and therefore can dispose of it at a low figure. The people of this vicinity are buying my clothing of us cheaper today than ever purchased it before. See for yourselves. F. S. Winslow.

FOWLS ARE PLENTY AND VERY CHEAP

MANY FARMERS HAVE RAISED
POULTRY THIS YEAR.

Fine Turkeys Sell For Nine Cents, Geese and Ducks for Ten and Chicken at Eight Cents a Pound—Some Prices For Other Thanksgiving Supplies.

Worry ye not about your Thanksgiving turkey, for they are, forsooth, cheap and plenty.

An unusually large number of farmers who have had bad luck with the "cholera hog" went into the turkey and chicken business with a vengeance, this year, and the result is plainly apparent. The home market is well supplied, and large shipments are being sent to Chicago, New York and Boston. The average Janesville merchant has had his fowls contracted for at least a week in advance, and one west side butcher had calls from fourteen different farmers one afternoon who had turkeys to sell.

The prices, too, are reasonable. Turkeys command nine cents a pound, ducks, ten cents; geese, ten cents and chickens eight cents. This makes a marked contrast with last year when good turkeys "waz skace" at twelve and one half cents a pound. And there are plenty of other good things in the market.

Prices For Other Supplies.

The Gazette gets the following prices on "things for a Thanksgiving dinner" from a local grocery firm:

Salmon, 12½ cents.
Whitefish, 10 cents.
Red Snapper, 12½ cents.
Lobsters, 25 cents per pound.
Clams, 20 cents a dozen.
Oysters in the shell, 20 cents a dozen.

Cranberries, 10 cents a quart.
Nuts assorted, 10 cents a pound.
Pecans, \$1.00 each.

Celery, 10 cents a bunch.
At a meat market these figures were received.

Venison, 25 cents.
Lamb roast, 12½ cents.
Mutton, 10 cents.
Pork spareribs, 7 cents.

Veal, 12½ cents.
Pork tenderloin, 15 cents.
Beef tenderloin, 17 cents.
Pigs feet, 8 cents.
Tripe, 8 cents.
Star hams, 12½ cents.

A Great Winter Garment Cleaning Up.

FUR CAPES,
CLOTH CAPES,
CLOTH JACKETS,
ASTRAKHAN COATS,
MISSES' CLOAKS,
CHILDREN'S CLOAKS

WE have fully decided on a vigorous campaign to reduce our stock of Winter Garments.

PROFITS will be ignored—one object—to reduce our stock.

WE have enjoyed an exceptionally large business in our Cloak department.

OUR styles seem to have hit the public fancy as never before.

SATISFIED with our largely increasing Cloak trade over any former season, for the balance of the year all garments will be sold at figures that will command the attention of people needing Cloaks.

THIS is no idle talk, no chaff just to gain your attention, to get you to the store and then ask old prices, but we will carry out our intentions, our purpose as outlined above and give you better Cloaks for the money than you can find anywhere else.

IT is well known that we show the largest line of stylish reliable, trustworthy, satisfaction-giving Cloaks; such as you can buy with perfect confidence.

NOT gathered from all comers of the earth so to speak, from any house that offers them, regardless of how they are made or the quality of the material, but bought from the best manufacturers in the United States, who value their reputation as we do ours.

WE would not be guilty of selling the class of garments that are shown in some Janesville stores today; made merely for show, but when it comes to wear, think of the disappointed people and how they have been taken in.

BUY a reliable garment.

DON'T try to get one too low, for it is poor economy.

THE LOCAL OVERFLOW.

LYNCH AND HOOK HAD A ROW

Rock County's Capitol Policeman In a Scrimmage at Madison.

The Madison State Journal prints the following item: "There was a little bit of a scrimmage between Capitol Policeman J. S. Lynch and Steve Hook, an employee of the Singer Sewing Machine company, near the south entrance to the capitol, yesterday afternoon, between 3 and 4 o'clock, growing out of a political discussion."

CAPITOL POLICEMAN LYNCH.

John Price, assistant superintendent of public property, appeared and put an end to what might have been a fight, had time been allowed.

The following communication published in the same issue of the Journal may throw some light on the cause of the difficulty:

"TO THE EDITOR: Is it treason to the state for a republican to say he will not vote for Governor Upham for a second term? If so, it is delegated to capitol policemen to administer punishment for the crime in the manner undertaken yesterday afternoon?" ENQUIRER."

SAR, why don't you try DeWitt's Little Early Risers? These little pills cure headache, indigestion and constipation. They're small but do the work. C. D. Stevens

There are many good reasons why you should use One Minute Cough Cure. There are no reasons why you should not, if in need of help. The only harmless remedy that produces immediate results. C. D. Stevens.

For Sale Cheap. My house, barn, and four full lots on Hickory street, just off Fourth avenue. Will make it a bargain to some one. Enquire at Gazette office. H. F. Bliss.

It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine; better results; better try it. C. D. Stevens.

The healing properties of De Witt's Witch Hazel Salve are well known. It cures eczema, skin affections and is simply a perfect remedy for piles. C. D. Stevens.

The Point of Resemblance. "That boy takes after you, John," she said, as she poured out his coffee at breakfast.

"Do you think so?" he asked, his face beaming with pleasure at the suggestion. "I'm sure of it."

"I can't see that he looks much like me," he said, doubtfully. "No; it isn't that that he resembles you," she admitted.

"And he isn't old enough to have developed any strong traits of character," he added. "No; it isn't that either," she said pleasantly.

"What is there about him that suggests me, then?"

"He snores," she replied with an aggravatingly cheery smile. — Chicago Post.

Nothing Ordinary About This. "Saw a fellow get an almighty licking yesterday."

"Where and how?"

"Big fellow, you know, was bullying; little fellow stood right up to him; blow was struck."

"And the bully got licked—good!"

"No, no—hold on; this isn't a fairy story. That little fellow was whaled out of his boots!" —Chicago Record.

A Dangerous Man. Mr. Nimrod—I am going out hunting this afternoon, and I'll bet I bring down something.

Mrs. Nimrod—But the dog you shot last time isn't well yet.

"O, I'm not going to have any dog with me this time."

"No dog! For heaven's sake, Henry, what do you expect to shoot?" —Texas Sittings.

His Natural Inference. "I'm taking lessons on the violin from Prof. Scrape."

"Is he a good master?"

"I should say so; last night I heard him play four tunes on one string."

"Really. Well, you ought to be able to play one tune on four strings!" —Chicago Record.

Disease and Death

Force their way into many a household that might be protected from their inroads, by the simple precaution of keeping in the house that benign family medicine and safeguard of health Hostetter's Stomach Bitters. Particularly where there are children, should it be kept on hand as a prompt remedy for infantile complaints, in their outset easily conquerable, but which, if allowed to engraft themselves upon the delicate child organism, are not only easily dislodged, and speedily work grievous mischief. Irregularity of the bowels, indigestion and biliousness are ailments of common occurrence in the household. Children living in malarious regions, are more liable to be attacked with chills and fever than adults, and the ravages of that fell disease in their system are speedier and more serious. In remote localities, far from professional aid, it is especially desirable.

The Ladies' Orchestra.

For Thanksgiving the management of Myers' Grand has secured a decided novelty for the entertainment of its many patrons in this city, where nothing is enjoyed more than good, well rendered instrumental music. The attraction in question is the Clara Schuman Ladies' Orchestra, composed of sixteen instrumentalists of the gentler sex, aided by Miss Claudia D. Petite, a soprano vocalist said to possess a soprano voice of much power and sweetness. The engagement of this organization will afford us the novelty of the present generation in the way of music, for it is the first orchestra that has ever been made up of accomplished lady performers.

"MY FOOD DOES ME NO GOOD."

In any city there are many possible ways to travel from one point to another. But between the food on your table and its destination in the body there is only one road,—directly through the stomach. There is no going around the stomach or forcing a passage through it. Here the food is detained a while for better or for worse. Here it must be digested,—that is to say, changed, liquefied and assorted for assimilation,—or, failing that, it must lie here and rot, generating poisonous principles which enter the blood and set up a diseased action throughout the system. This is indigestion or dyspepsia,—the condition that exists when a person says: "My food does me no good."

Certainly not. How can it? The more he eats the more he suffers. The road is blocked. No use putting more grain in the hopper when the mill cannot grind. Here are some of Nature's protests: loss of appetite; distress after eating; heartburn; palpitation; flashes of heat and cold; the rising of nauseous acids and gases into the throat; furred tongue; dull and aching head; pains in the chest and back; weariness, fatigue and worry; loss of sleep; cold hands and feet; yellowish eyes and skin; weakness and trembling; constipation; failure of nervous force and courage, etc., etc. Out of this seething blockade in the stomach may come any of a dozen local complaints,—a common form of pseudo-consumption among them. Yet you must eat or starve. Miserable dilemma.

Drastic measures won't do. Take a very little light nourishment first and immediately after it a dose Shaker's Digestive Cordial, the only really effective remedy for indigestion or dyspepsia,—prepared by the Shaker community of Mt. Lebanon, N. Y. It will relieve at once and cure quickly. Made from cultivated medicinal herbs and plants grown by the Shakers Pleasant to the taste, painless and harmless.

THE CLOTHING TRADE BOOM.

The past six weeks has witnessed the failure of an unusually large number of firms engaged in the clothing and clothing trade, and indications point to additional embarrassments before the close of the present month. The collapses have also extended to a few large dry goods jobbing houses.

The foregoing is from the Wool and Cotton Reporter. It points out clearly the nature of the free trade revival in business, and tells what the Wilson-Gorman law is doing for the woolen industry of the country.

The Wool and Cotton Reporter further says, that, "the present time is perhaps the most critical one of all the year." Possibly the times will be even more critical later in the year or during 1896. It is also stated that "the banks appear to be scrutinizing more closely than ever to those who apply to them" for credit. This seems to be a little peculiar, because we have time and again been assured by the free trade papers of the country that all the weak concerns had gone to the wall during the free trade panic of 1893 and 1894. Now, it is the solid and sound concerns that must be "scrutinizing more closely than ever" the credit of the solid business concerns that escaped the free trade wreck of 1893 and 1894, it shows the nature of free trade business revival and the effect of a policy of free trade in wool. Bankers have no confidence in either.

ARE TRUSTS IN DANGER?

Much interest is manifested in the proceeding instituted by the attorney general of New York to restrain the American Tobacco Company from doing business in that state. If the action shall be sustained by the courts and the company be driven out of the state it will doom every trust and combination having its headquarters in New York to a like fate. The methods of the tobacco company are similar to those of the other great monopolistic combinations organized in another state and doing business in New York under a certificate granted by the secretary of state in virtue of the comity usually recognized in the case of foreign combinations, and if the tobacco company's way of doing business is in contravention of the laws of the state, so is that of the sugar trust and other more or less despotic monopolies similarly organized and conducted.

Moreover if New York shall bar out these great trusts other states will follow and the doom of trusts will be sealed throughout the United States.

A GOOD BOOK TO STUDY.

The man who wishes to obtain definite and practical information regarding the financial affairs of the government can find no better book than Sherman's. The Ohio statesman has had a great deal to do with such matters, and he writes about them in a very interesting and instructive way, simplifying them to the common understanding, and presenting important facts without any of the perplexing technicality of the expert writers on such subjects.

If all indications are true, the coming year will see an increase in the output of American gold mines which, even if it does not approach the Kaffir expansion will strongly affect the American market. There is lately a marked impetus in the gold mining districts of Montana and farther west, and next year will be likely to move them to duplicate it.

The partial failure of the battle ship Texas recalls the fact that the vessel was built on English plans, bought by Mr. Whitney when he was secretary of the navy under the first Cleveland administration. The non-sensical Ammens ram is another democratic naval monstrosity.

The only recommendations that amount to anything in Mr. Cleveland's message will be those shaped with a view to getting republican support. United democratic support for any of Mr. Cleveland's schemes would be very hard to command.

Here's a chance for some democrats to anticipate the arrival of the icy hand of next November. Volunteers are wanted for the balloon expedition in search of the north pole, which is to leave Sweden next year.

Men in a position to know estimate that the output of bicycles for the season of '96 will reach a million in number. Maybe the democrats will use

wheels for their excursion up Salt river.

TWO CARS WERE DERAILED.

Railroad Men Have Troubles Beside the Storm-Limited Came Via Afton.

The C. & N. W. wrecking crew were busy in the local yards this morning. During the night a freight train was being made to go south, when two cars were derailed by a misplaced switch. Little damage resulted, but the accident delayed things somewhat.

The St. Paul vestibule for the first time in many years arrived in the city this morning via Afton. The train is due here at 6:25 but did not arrive until 7:30, the delay being caused by the derailling of an engine near Evansville on the cut-off branch. A special engine was sent from this city to Afton and acted as helper from that village to this city, the train backing up.

AT CUPID'S ALTAR THEY STOOD

Kendeligh-Winchester.

On the evening of November 23, at the home of Mr. and Mrs. John Black, Shopiers, occurred the marriage of Wilber Kendeligh and Hattie Winchester both of Merengo, Ill. The ceremony was performed by Justice Steadwell, after which the friends and relatives with Mr. and Mrs. Kendeligh, repaired to the dining room where the table was groaning with its weight of good things which were too numerous to enumerate. After supper music and good cheer abounded and at a late hour the guests dispersed to their several homes, well pleased with the manner in which they were entertained. The bride is a niece of Mr. and Mrs. Black and after visiting her uncle and aunt until Monday, she and her husband returned to their home at Merengo, Ill.

A RELIABLE PILE CURE.

The Pyramid Pile Cure is the safest and surest pile cure on the market, because it contains no mineral poisons, nor opium, nor cocaine, but can be used with absolute safety and certainty of cure.

Many physicians are now using the Pyramid Pile Cure in place of surgical operations, being painless, convenient to use, and the patient can attend to his daily occupation while the cure is being made, as it is used at night and no additional treatment is necessary.

Dr. Wharton says the Pyramid Pile Cure will prove a blessing to mankind, when it is remembered that heretofore a surgical operation was considered the only cure with all its danger to life, intense pain and an expense of from ten to one hundred dollars, to say nothing of the possible return of the trouble. The Pyramid Pile Cure is sold by druggists at 50 cents and \$1.00 and does the work quickly and safely.

A book on cause and cure of piles will be mailed free by addressing Pyramid Co., Albion, Mich.

TRAINS ALL DELAYED BY THE BLIZZARD

LAST NIGHT'S STORM WAS A SEVERE ONE.

Midnight Vestibule Got Here At 4:40
This Morning And Others Were Correspondingly Late—Storm More Severe South than North—Not Much Damage Done to Wires.

HE edict that Janesville and southern Wisconsin would be given a snow storm was sent out from Johnson's Creek yesterday and last night it came. And such a storm. The wind blew a gale and the fine snow sifted into cracks that were too small to admit a pen knife, with celerity and ease. People who had to be out of doors inclined their heads away from the blast, and hustled for shelter, while sedate old family horses became Gentrys and Patchens when their heads turned homeward. Motor-men swore continually and in fact, everybody who had to compete with the weather got the worst of it.

Railroads Feel Its Force
The railroads felt the full force of the blizzard, and not one train reached Janesville on time last night. The "midnight vestibule" from Chicago did not get here until 4:45 o'clock this morning, while the limited train from St. Paul, due here at 6:25 this morning, did not pull into Janesville until 7:30 o'clock. The "Chicago paper train" due here at 6:25 fought snow until 8:30 and the papers were correspondingly late in being distributed. It is seldom that the limited trains are late because of a storm, so you can write it in your diary that this one was unusually severe. Freight traffic was hindered even more than the passenger business and the accommodation was the only C. & N. W. train that reached Janesville on time this morning.

St. Paul Road Felt It, Too.
The morning passenger trains on the St. Paul road were also late, and had some difficulty in getting through at all. "Hog" engine number 779 pulled a freight train into the Janesville yards at 8:15 this morning, that was a sight to behold. Snow was packed about the trucks of the cars in a solid mass, while the engine was plastered over from smokestack to trucks.

"We have been all night getting up here from Chicago," said Engineer Reed to a Gazette man. "We are due in Janesville at 2:40 o'clock a. m., but we were lucky to make as good time as we did under the circumstances. It was a hard pull, as the snow seemed like so much lead. The storm was general south of this city, and the worst drifts we struck were near Geneva Junction."

The storm was most severe south of the city, the railroad men say, and all the trouble was experienced in the southern portion of the state.

Telephone Wires All Right.
The Wisconsin Telephone Company's crew in this city were greatly surprised this morning, to find what little damage the storm had done to the wires. Instead of finding lines down in all parts of the city and country, investigation developed the fact that not one wire was down either in the city or in the outlying districts. The Western Union Telegraph Company had some difficulty, the Janesville office not having been able to "raise Chicago" up to noon either direct or via Milwaukee. The special wire leased by McDonald's commission house was also down, and they received no quotations at all today. The wind was responsible for the trouble with the wires, the snow not being damp enough to stick to them.

THE NEWS NOTES OF THE TOWN
LEAVE order at Daly's for ice cream for Thanksgiving dinner.

A DELEGATION of city officials came down from Sheboygan today to examine the steam roller.

It's none too early to order engraved cards and hand embossed stationery for Xmas. A. F. Hall & Co., "the reliable jewelers" furnish correct styles and the best goods for the money, that money will buy.

If the salad for your Thanksgiving dinner was served from one of those beautiful old glass bowls that await your pleasure at A. F. Hall & Co's, "the reliable jewelers" Well, you know your wife would be happier if it was.

FRIENDS of Mr. and Mrs. J. E. Gleason assembled at their La Prairie home today, the event being the celebration of Mrs. Gleason's fifty-fifth birthday. Numerous presents marked the occasion which was an exceptionally enjoyable one.

There seems to be no let up in the millinery room. The ladies are as busy now as any time during this very successful season and the clear up prices put upon many lines of both trimmed and untrimmed hats is making business as active as at the start. The thing that has made this department so popular is that while prices right through are on the same basis as in other departments, which economical women know are always the lowest, there is nothing sacrificed in the making. The trimmers are as particular with the cheaper priced hats as with those costing higher and as stated before this is Janesville's only millinery department that sells up to the millinery at popular prices.

It will be remembered that Mr. Ingalls was to have lectured here November 5, but sickness prevented, and while the management of the lecture course regret his having to come on a Saturday evening, and so soon after the grand concert, yet it has been thought better to have him on this evening than not at all.

JONATHAN AND PREACHERS.

He Had an Experience and Knew When They Hit the Nail.

It isn't in the traditions of the Ozark country that old Jonathan Magness was ever converted, but stories are told to show that he had a certain kind of respect for religion. The Magness family came from Kentucky. On one occasion, it is said, the Rev. John Milligan stopped at Jonathan's house for the night. The arrival was unexpected. Mrs. Magness had made no unusual preparations for supper. As the family and the guest sat down old Jonathan surveyed the simple fare for a few moments and then said abruptly: "Help yourself, Mr. Milligan."

Breakfast brought an altogether different looking array of dishes. Old Jonathan looked it over.

"Well, old lady," he said, addressing Mrs. Magness, "it looks as if you had something for breakfast worth thanking God for."

Turning to the preacher old Jonathan said:

"Give us a touch, Brother Milligan." And Brother Milligan promptly asked a blessing.

Three young Methodist preachers on the way to conference stopped at the Magness house for the night. After supper old Jonathan produced a Bible and a hymn book. He handed them to one of the young preachers, asking:

"Sir, will you pray in my family?"

The young preacher read and sang and prayed. As soon as they arose from their knees old Jonathan handed the books to another, asking:

"Sir, will you pray in my family?"

The second preacher conducted service, and then the old man called on the third. This young man took the books and went at it in earnest. He read and sang and prayed. He opened with a general appeal for all mankind, and generally narrowed down his intercessions until he got down to "poor old Father Magness, whose locks have grown gray in sin, and who is now stalking on the brink of hell." He begged the Lord "to soften this old sin-hardened heart and turn the face of Father Magness Zionward."

Old Jonathan asked for no more prayers. The next morning the preachers asked what they owed. Mr. Magness said to the first: "Your bill is \$1." To the second he said: "Your bill is \$1." To the third he said: "Your bill is nothing. I'll be — if you didn't pray well for me."

HE MADE A GOOD BARGAIN.

The London Syndicate Bit Freely at His Very Modest Mining Property.

From the San Francisco Post: "It is the easiest thing in the world to sell a mine in London for almost any price, provided you have anything to show an expert," said Major Frank McLaughlin.

"There is also a right way and wrong way to go about it. Some time ago I went to London to negotiate the sale of some mining property. Of course the first thing I had to do was to let capital know what I was there for. Then, when inquiries commenced, I simply said: 'Gentlemen, I have mining property to sell. If you mean business and want to buy send your expert out to examine the property and make a report on it. You know then what you are buying.'

"A company was organized. An expert examined the property and reported favorably and a meeting was held to discuss the terms.

"Now, major," said the spokesman, "we have found that the property may be worth something. What is your price?"

"Two hundred and fifty thousand," said I.

"That is more than we expected to pay. We expected to pay about two hundred. There is not much difference between two hundred and two and fifty. If you drop the fifty we will take it."

"I had expected to get about \$100,000 for the property, so with a show of reluctance I agreed to accept their offer. When the papers were made out I was surprised to learn that they had been talking about pounds and I about dollars, but I was very careful not to let my surprise leak out, and that is the way I got \$1,000,000 for the mine."

Lightning Stroke Facts.

From the Rochester Herald: Certain facts about lightning strokes, the result of years of experiment by the United States weather bureau, have recently been tabulated. Thunderstorms reach their maximum in June and July, though reported in every month except in January, the region of winter thunderstorms centering about Louisiana. Forty such storms are the maximum average for any such section. The average annual loss of life from lightning in the United States is twenty-four persons, of loss of property, over \$1,500,000. People living in cities and thickly built towns run little danger, the risks in the country or suburbs being five times as great. For the same reason the center of a grove or forest is much safer than its edges or isolated trees, the dense growth acting to distribute the current.

Very Remarkable.

"So I have, but I went to college to study, merely."

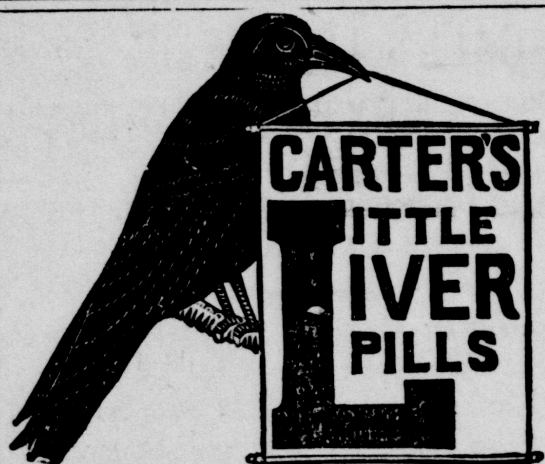

Ode to a Turkey.

One would think you owned the town by your strutting up and down,

And your gobble, gobble, gobble all so gay;

But you'll sing a different tune when, a little after noon,

I gobble, gobble, gobble you Thanks-giving Day.

RHEUMATISM POISON.

The Only Cure for Rheumatism Is to Get Rid of the Poison.

The Kidneys Filter It Out.

Uric Acid in the Blood; Its Origin and Dangers.

Facts About Rheumatism.

Well Kidneys Prevent Rheumatism; Sick Kidneys Make It.

Real Cure For Rheumatism.

The reason why rheumatism is so hard to cure is because so few people understand it. It is not a nerve or muscle disease. It is a blood disease.

What causes it is poison in the blood.

The name of this poison is uric acid; it should be kept out of the kidneys. The only cure for rheumatism is to get rid of this poison.

The only way to do this is to make the kidneys do it.

The only medicine specially prepared to make the kidneys do it, is Dr. Hobb's Sparagus Kidney Pills:

Uric acid comes from waste matter in the system. It is collected by the blood on its return trip to the heart. It is filtered out of the blood by the kidneys.

As long as this is done by your kidneys you can't have rheumatism, for there will be no uric acid to make it.

But as soon as the kidneys begin to neglect their duty, rheumatism sets in.

The exciting causes of rheumatism are cold, damp, chills, etc. This has a tendency to clog the kidney; to prevent them from filtering out the uric acid.

Some people never have rheumatism all their lives. Their sick kidneys affect them in other ways. They get Bright's disease and other kidney troubles, sleeplessness, anaemia, chlorosis, nervous headache, neuralgia, etc.

Dr. Hobb's Sparagus Kidney Pills will cure them as well as the rheumatism.

Folks who are subject to rheumatism should take particular pains with themselves. Whenever they have been exposed to catching cold they should take a few doses of Dr. Hobb's Sparagus Kidney Pills.

This may not cure the cold, but it will probably prevent rheumatism. It will prevent clogged kidneys, and help them to filter the blood.

Pure blooded persons never have rheumatism because there is no uric acid in their blood to make it with.

Your rheumatism can be very easily cured if you will take Dr. Hobb's Sparagus Kidney Pills. They tone up your kidneys and make them filter the uric acid out of your blood.

This is not hard to understand when you come to think of it.

The wonder is that it was not generally understood before.

Physicians understand it and recommended Dr. Hobb's Sparagus Kidney Pills for rheumatism and for all disorders of the kidneys and blood.

They understand the immense importance of having pure blood. They know that the kidneys filter the blood when they are well. They know what wonderful curative effects Dr. Hobb's Sparagus Kidney Pills have on sick kidneys.

And they recommended Dr. Hobb's Sparagus Kidney Pills.

So do all who have used them.

The pills are purely vegetable and perfectly harmless. They are pleasant to take and the good effects are almost immediate.

They give you a feeling of renewed brightness, freshness and strength, and cause pains, aches and sickness to vanish.

A few doses will relieve. A few boxes will cure.

Sold by all druggists, or mailed prepaid for 50 cents a box.

Two New York Cloak houses

with Chicago offices where they displayed their entire sample lines being through with their season and not wanting to pay express charges on the garments to New York, offered them to us at a liberal discount and always on the lookout for snaps, we were right there and made the deal with both for the entire lines. These garments were made up to show to the best merchants in the west, and were made particularly well, not one but what is right in every way. They were never handled on the road, but have only been shown in Chicago and are therefore in better shape than would be the case with those made up now in the mid-season rush. They are in stock today and comprise many exclusive styles not seen heretofore in ladies' and misses' jackets, in boucles, cheviots, kerseys; also plush and cloth capes and fur garments.

Don't buy a cloak of any kind until you look here where we positively guarantee to save you one-third.
